

**INTRODUCING  
OUR ALL-NEW**

**FLOMEC<sup>®</sup>**

**QSE Mag**

**ELECTROMAGNETIC  
FLOWMETER**

*for Commercial and Industrial Applications*

**ENGINEERED TO DELIVER**  
**Better Performance, Higher Quality and Lower Cost**

- NSF-61 Certification
- CSA Certification
- Low Investment and Operating Costs
- Externally Powered Pulse-Output for use with or without FLOMEC 09 Electronics Display
- Wide Turndown Ratio of 60:1
- Noryl™ Flow Tube, Housing and Sleeve Material (up to 210°F/99°C)
- 7 Line Sizes (1/2" to 4")
- ± 0.5% Accuracy of Reading (from 1/4 fps to 15 fps [0.08m/s to 4.57m/s])

**Optional Features with QStar Interface Board (QSI):**

- BTU (Energy Measurement)
- 4-20mA Output
- Data Logger
- MODbus RTU (Via RS485)
- Adjustable Scaled Pulse Output
- Andriod App (For custom configuration)
- BACnet Communications (Pending)

*Flange connections for  
3" & 4" models.*

**GREAT PLAINS INDUSTRIES**

**Wichita / Sydney / Mexico City**

*A leader in quality flowmeter manufacturing  
and distribution worldwide.*
